

Year 2

Spring Term 2021

### English

This term we will be using different texts. Our writing outcomes will include: retelling a familiar story, rewriting the ending of a story, and writing recounts in the form of a news report.

### Science

This term our units will be on habitats, and space. Some of our lessons will include: knowing the characteristic of living things, finding out what a microhabitat is, looking at a variety of different habitats, understanding what space is and knowing what planets are in our solar system

### Computing

We will be developing the children's knowledge on e-safety, so they understand how to stay safe on the internet, and why it is important. We will also be learning how to create music digitally.

### Music

Our music units are rhythm and pitch. In the first unit we will learn how to find the pulse in a piece of music and explore using symbols to represent sounds, then we will be able to recognise musical symbols, and finally we will finish the unit by composing a rhythm.

### PE

In PE we will be focussing on hockey and basketball. This will involve learning new ball skills, such as dribbling and keeping the ball under control at all times.

### Geography

In Geography we will be focusing on understanding Brazil. This will include knowing where Brazil is, why people visit it, the features of Brazil and looking at the population and the weather. We will compare Brazil with the UK.

### History

In history this term, we will be thinking about how our lives have changed in our living memory. This will include looking at the current culture, including popular music, food, transport, and looking at the way's communication have changed over time.

### RE

In RE in this term we will be learning about the Gospel and Salvation. This will include learning about the 10 gifts that God gave to humans, learning about thankfulness, understanding the Easter story and forgiveness.

### Art

In Art we will learn all about batik, what it is and how we can create a traditional Indian design using batik. We will create our own design, complete the design onto cotton and finish it with embellishments.

### Maths

This term in Maths we will be following Power Maths. Our units are multiplication and division, properties of shape, and fractions. We will also be having a weekly arithmetic test and using times table rock stars to start learning our tables.

### PSHE and SMSC

In PSHE we will focus on having a healthy lifestyle and human rights. This will involve understanding how to be healthy, feeling good about yourself, as well as understanding what rights we have and standing up to bullying.
