

Art/DT

We will make simple switches and circuits in our design and make project and explore textiles in art, including embroidery linked to our Ancient Egypt topic.

MFL – French

Our topics for French are 'What's the time?' and 'Hobbies'.

Computing

We will explore the use of photo-editing software and using data loggers to collect, review and analyse data sets over time.

Maths

Our maths areas of study are :

Decimals

Money

Time

Statistics

2d shape and angles

Science

We will study raw and synthetic materials and then move onto understanding what sound is and is made. We will use the data loggers within our Computing unit to enhance our work here.

PE

We will be developing key skills in athletics, including running, jumping, throwing and catching skills in isolation and combination; and playing the team sport of rounders.

Year 4

Summer Term 2021

Geography

Find out about the physical and human features of South America and compare this to what we know about the UK.

RE/PSHE

Our two topics are Growing and Changing and Physical Health and Mental Wellbeing about maintaining a balanced lifestyle.

RE topics are Creation/Fall and People of God.

Music

We will develop our skills in musical processes and structure.

English

We will learn how to write in a journalistic style, basing our writing on traditional tales. We will also explore more narrative styles using The Jabberwocky and Whale Rider.

History

Discover the Ancient Egyptians and the legacy that they left. We will learn about uncovering King Tutankhamun's tomb and the ancient Egyptian's belief in the afterlife.

Bratton Passport at Home

Bake a cake or biscuits.

Hunt for treasure.

Invent a new game and teach it to someone.
