Accessibility Plan 2017-2020

Introduction-

This plan identifies how the school meets the needs of disabled children in response to the Special Educational Needs and Disabilities Code of Practice 2014:0 to 25 years. This will be reviewed every three years by the Governing Body.

Definitions of SEND-

'A child or young person has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for him or her. A child of compulsory school age or a young person has a learning difficulty or a disability if he or she:

- has significantly greater difficulty in learning than the majority of others of the same age or
- has a disability which prevents or hinders him or her making use of facilities of a kind generally provided for others of the same age in mainstream schools or colleges.'

'Many children and young people who have SEN may have a disability under the Equality Act 2010- that is'... 'a physical or mental impairment which has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities'. The definition provides a relatively low threshold and includes more children than many realise: 'long-term' is defined as 'a year or more' and 'substantial is defined as 'more than minor or trivial'. This definition includes sensory impairments such as those affecting sight and hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer. Children and young people with such conditions do not necessarily have SEN, but there is a significant overlap between disabled children and young people and those with SEN. Where a disabled child or young person requires special educational provision they will also be covered by the SEN definition.'

(SEND code of Practice 2014)

The Equality Act 2010

'The Equality Act 2010 sets out the legal obligations that schools, early years providers, post-16 institutions, local authorities have towards disabled children and young people;

- They **must not** directly or indirectly discriminate against, harass or victimise disabled children and young people
- They **must** make reasonable adjustments, including the provision of auxiliary aids and services, to ensure that disabled children and young people are not at a substantial disadvantage compared with their peers. This duty is anticipatory- it requires thought to be given in advance to what disabled children and young people might require and what adjustments might need to be made to prevent that disadvantage.
- Public bodies, including FE institutions, LA, maintained schools, maintained nursery schools, academies and free schools are covered by the public sector equality duty and when carrying out their functions **must** have regard to the need to eliminate discrimination, promote equality of opportunity and foster good relations between disabled and non-disabled children and young people. They **must** publish information to demonstrate their compliance with this general duty and **must** prepare and publish objectives to achieve the core aims of the general duty. Objectives **must** be specific and measurable.' (SEND code of Practice 2014)
- The duties cover discrimination in the provision of services and the provision of education, including admissions and exclusions. (SEND code of Practice 2014)

All providers **must** make reasonable adjustments to procedures, criteria and practices and by the provision of auxiliary aids and services. Most providers **must** also make reasonable adjustments by making physical alterations. Schools and LA education functions are not covered by this last duty but they **must** publish accessibility plans''setting out how they plan to increase access for disabled children to the curriculum, the physical environment and to information.' (SEND code of Practice 2014)

' Where a child or young person is covered by SEN and disability legislation, reasonable adjustments and access arrangements should be considered as part of SEN planning and review.' (SEND code of Practice 2014). The full range of needs and required support for all children identified as SEN Support or with a statement/EHC plan will be considered at least termly. The discussions will involve staff, parents and children plus outside agencies, as necessary.

The action plan below identifies key activities that will take place to ensure that the school becomes increasingly accessible for children with disabilities.

Current position

- The school buildings are accessible for wheelchair users.
- There are two disabled parking spaces provided in the carpark
- The outside play areas are flat and are completely accessible to wheelchair users
- There are two disabled toilets, one outside the School Hall and one in the South Wing
- EYFS play area has a flat outdoor play area with raised sand, water and gardening equipment
- The Forest School Area (Wild Area, Hen's Wood and Orchard) are grassed
- The EYFS toilets have 'grab' bars installed
- The children's kitchen has a wind down sink

For the inclusion of children with complex needs/learning difficulties, some children are supported by experienced 1--1 workers under the direction of the SENCO and class teachers.

Mainstream Teaching Assistants support a range of children - delivering learning interventions and therapy programmes such as Cool Kids.

The school is well-equipped with a range of learning aids and specific equipment. iPads and other devices are used to support learning across school.

The following details specific anticipatory activities aimed to increase accessibility for children with SEND to the curriculum, the physical environment and to information.
