

Enriching Lives Everyday

English

We will be using books related to our theme of Population. Outcomes will include poetry, informal letters, advice and persuasive writing. Children will also develop reading skills using a range of texts and learn spellings and spelling rules.

Maths

This half term we will continue our focus on place value, the four operations, fractions and converting units of measurement.

Science- Living Things and their habitats

We will be learning about how living things are classified into groups. We will explore classification keys and how to use them to identify living things in our local environment.

Religious Education-

Our focus this half term is this question:

Was Jesus the Messiah?

Year 6 Autumn 2

'Enriching Lives' by connecting learning Population

Visitors: Windrush workshop
When: 10th November 2025

Geography- Population

In geography, our focus will be on population, how and why it has changed, population pyramids and the challenges facing growing and aging populations around the world.

Design Technology-

Our unit theme is Mechanical systems- monitoring and control- where we will use Crumble to design a circuit to use in our designs, make and then evaluate our products against specific criteria.

Physical Education (PE)

Hockey- we will work on tactics, dribbling, a range of passes and how to vary speed and direction.

Pilates- we will develop flexibility, strength, technique, control and balance.

Modern Foreign Language (French)

We will continue to link our History from last term. We will be looking at World War 2 and learning key language related to this. We will begin to form simple sentences using the correct verb form.

Music - Happy

We will continue our work on the song 'Happy' from the first half term.

PSHE-

We will be exploring safe relationships and recognising and managing pressure in those relationships as well as understanding the importance of giving permission.
