

Enriching Lives Everyday

English

Maths

In Maths the term will begin with time. We then move onto shape and angles. We finish with statistics.

Science - Plants

Children will be able to identify different types of plants, the parts of plants, how they reproduce and how they benefit the environment.

Physical Education (PE)

Netball and Tennis.

Computing - Stop Animation (Scratch)

Children will learn to use the Scratch Animation program seeing how code can create their animation.

PHSE - Growing and Changing

Children will learn how they and others change. They will think about how change can be a challenge and a positive thing.

DT- Food and a healthy Diet.

Children will create their own sandwich after learning about different food groups and what makes a balanced healthy snack.

Religious Education - What kind of world did Jesus want?

Children will look at different parables and teaching from the Bible to discuss what sort of world Jesus wanted.

History - Early Civilisations

Children will identify and compare different early civilisations.

Modern Foreign Language (French) - Animals

We will learn the key vocabulary related to animals.

Music -Bringing Us Together

Children will learn to perform a number of pop tunes.

Year 3 Summer 2

'Enriching Lives' by connecting learning about Plants
